18 November 95,350 cars
19 November 95,045 cars

25X1 [redacted] Comment. As compared with the last reported status of 12 November 1952, coal stocks decreased by 18,764 tons to a total of 135,935 tons. It is remarkable that hard coal stocks dropped by about 11,000 tons. According to the present daily coal consumption quota of 21,100 tons, coal stocks available represented 6.8 days' requirements. [redacted] 25X1
ILLEGIB [redacted] In view of the present season, these coal reserves must be considered as inadequate. The backlog of undispatched cars and the park of operational cars increased, while the number of damaged cars remained constant.
